PROJECTS

CvArbunize

Jun 2017 - Jun 2017

https://github.com/harrypotter0/Arbunize/tree/master/cv-arbunize

This is a CV/Resume template created by me .

It is responsive and cool too . But it is under development stage .

Breakout Game

Jun 2017 - Jun 2017

https://github.com/harrypotter0/WebSummer/tree/master/breakout_game

This is a game developed by me to test my skiils on JS . I made a 2-D game which is a single player game .

Cradle

May 2017 - May 2017

https://github.com/harrypotter0/WebSummer/tree/master/03Cradle

This is totally built on CSS3

Universal Video Player

Feb 2017 - Feb 2017

https://github.com/harrypotter0/WebSummer/tree/master/videoplayer

This video player will work same everywhere (Firefox, Internet Explorer, Chrome, etc.) .It has been built using HTML5, CSS3 and JS of course . It is bit interactive to look at and is simply a basic Video Player .

MyKoala

Jan 2017 - Jan 2017

https://github.com/harrypotter0/css_images

Built purely on CSS.

MyBear

Jan 2017 - Jan 2017

https://github.com/harrypotter0/css_images/tree/master/cssimage1-1

Built purely on CSS3. No Is used. A static bear. #cssimageschallenge

Robotics project

Oct 2016 - Dec 2016

https://github.com/harrypotter0/Robotics_project

Programming a Self-Driving Car using Artificial Intelligence Methods

Interactive Designs

Nov 2016 - Dec 2016

https://github.com/harrypotter0/harrypotter0.github.io

Simple 3 section Web Design along with simple responsive scrolling.

MyMusic UI

Jun 2016 - Jun 2016

https://github.com/harrypotter0/WebSummer/tree/master/my-music

A UI built primarily using flex-boxes only . Its still in development stage .

TributeToGreatPersonality

May 2016 - May 2016

https://goo.gl/99My2F

Hi Guys here is a link to the code pen . Though I haven't uploaded the webpage on a server but I have uploaded my code here (https://codepen.io/harrypottero/pen/dRorWX) . Also you can see here the webpage itself .

Digit Recognition Using MATLAB

Mar 2016 - Apr 2016

https://github.com/harrypotter0/Digit-Recognition

Automated-Handwritten-Digit-Recognition

Portfolio

Feb 2016 - Feb 2016

https://goo.gl/B9dOkO

This is just my Portfolio made as a part of a project.

It made use of HTML5, CSS3 and Bootstrap.

No javascript have been used.

The page is responsive and is quite good to look at .

Tower Defence Game

Oct 2015 - Dec 2015

https://github.com/harrypotter0/Tower_Defence_Game

A tower defence game with procedurally generated levels written in Java using the Slick2d library.
